CREATING BEAUTIFUL  
BEDROOMS FOR THE  
CATASTROPHICALLY ILL

## VALERIE'S ROOM

VALERIE is a fifty-five year old woman who has battled breast cancer and mold disease over the past ten years. Just when she thought all was well, she was told that her cancer had returned in both of her breasts; now she will need a double mastectomy. How will she recover when she has to sleep on the edge of a broken and sunken bed in a room that is not inspiring her to fight; when fighting is just what she needs to do?

### IMAGINE THAT YOU CAN MAKE A LIFE CHANGING DIFFERENCE

The Nice Place Program decorates bedrooms for clients who are ill and without a space that evokes love and a safe haven. Graytly Inspired needs your help to change a life, one client at a time.

Graytly Inspired was created by Julee Campbell, a social service dynamo who has privately funded bedroom makeovers for a number of hospice patients. Julee expanded her efforts with catastrophically ill clients throughout the greater Los Angeles area; therefore she decided to put her professional and private experience to work in the non-profit sector.

Graytly Inspired wants to give Valerie a bedroom she can retreat to as she fights for her life.

Presently, her furniture is worn, battered, and in need of refurbishing. Because of her mold and allergy problems, she cannot have certain fabrics. She does not have allergy free bed linens and curtains to make her room pretty. Valerie would like a new bed, hypoallergenic linens, her furniture refurbished and her walls painted.

Please contact Julee to donate linens, paint or cash to create a space that will inspire Valerie to fight for her life.
